Survey Team Leader	Survey Type		Response Due
Brown, Stacey	Health Care Licensure and Follow-Up		01/01/2022

Item #	Rule (16.03.22)	Description
1	.330.04.c.vii. Resident Care Records*	The facility nurse stated she had assessed residents for changes in their conditions, but these assessments had not been consistently documented. For example, Resident #2 fell on 6/14/21 and sustained a "goose egg" with bruising to their forehead; the facility nurse stated she had assessed the resident after the fall, but the assessment was not documented. Resident #2 was also noted to have redness and tenderness to both great toes/feet noted by hospice on 7/1/21, 8/18/21 and 10/11/21. The facility nurse stated she had assessed the resident's feet for these complaints but did not document these assessments. Resident #3 had a skin lesion to their forehead first noticed in August 2021; by September 2021, this was diagnosed as a cancerous wound, and the resident subsequently underwent excision of the lesion in October 2021. The facility nurse stated she had regularly assessed this wound but had not documented these assessments.
2	.600.04.b. Sufficient Personnel*	Two of two caregivers, who worked alone, did not have current CPR or First Aid training certifications. The administrator stated she did not realize these certifications had expired.
