For example, the policy did not contain specific definitions of abuse, neglect, and exploitation according to IDAPA rules; how residents/family/visitors would be educated regarding abuse/neglect/exploitation, the phone number for adult protection/law enforcement and in the event of an emergency that 911 should be called immediately, what to do if the administrator or a visitor was the suspected alleged abuser, any forms or systems that would be used to document the incident/allegation/investigation or where all the documentation related to the investigation would be stored and how privacy would be ensured during interviews. The facility was previously provided Technical Assistance on 3/10/2021 regarding the facility's abuse/neglect/exploitation policy missing the required elements.
