Item #	Rule (16.03.22)	Description
1	.300.01. Licensed Registered Nurse (RN).	The facility nurse did not complete initial nursing assessments for all residents. For example, Residents #1, 3, and 4 were not assessed by the facility nurse after they admitted to the facility. The administrator stated the previous nurse did complete preadmission assessments, but not initial assessments after the residents moved in.
2	.320.08. Periodic Review.	Negotiated Service Agreements (NSAs) were not updated to reflect significant changes in Resident #3's health status. For example, Resident #3 had a continuous positive airway pressure device (CPAP), a dialysis fistula, a central arterial port, and a wound to their low extremity, which was the result of an incident two months prior. None of these conditions or devices were included in the resident's NSA to ensure the staff had instructions for care or what to do for possible complications. The facility nurse stated Resident #3's NSA was not updated to reflect their needs.
