Item #	Rule (16.03.22)	Description
1	.405.04.a. Prohibited Applications.	During the facility tour, two Multi-Plug Adapters (MPA) were observed in use in room #11 with an oxygen concentrator plugged into the MPA, and in room #4B with medical air mattress plugged into the MPA. The administrator and the nurse confirmed the oxygen concentrator and medical air mattress were plugged into MPAs.
2	39-3321.2.d. Qualifications and Requirements of Administrator.	The facility did not develop interventions to prevent recurrences after residents' incidents. For example, Resident #10 experienced four falls from March 2026 to July 2026 and the intervention was to encourage the resident to use their call light, and three of those falls occured back to back. Resident #2 experienced three falls from March 2026 to July 2026 and the intervention was to encourage the resident to use their call light and two of the the falls occured back to back. Resident #3 experienced three falls from April 2026 to June 2026 and the intervention was to encourage the resident to use their call light, and one of the falls on 6/29/26, documented the resident had used their call light. The facility nurse confirmed new interventions were not implemented to prevent recurrence.
